

BIODEGRADABLE PLASTICS

Biodegradable Plastics are plastics that will degrade over time.

ECM Bio Film:

ECM Bio Films has developed an additive when combined in small quantities with any of the popular plastic resins, rendering the end product biodegradable. ECM's technology enables micro-organisms present in the environment to metabolize the molecular structure of the plastic into a form that is harmless to the environment.

Consequently, ECM plastics have a long shelf life and will only start to degrade when it comes in contact with micro-organisms, which are commonly found almost everywhere on this planet. This remarkable additive and the result it produces is a giant step forward in contributing to a greener environment.

ECM PRODUCT LINE-UP

White Fold Over Die Cut Handle Bags

The classic Fold Over Die Cut Handle Bag was designed to accommodate the need for a very strong and durable handle. By manufacturing these bags with a double-folded handle, the bag is rendered much stronger than a Non-Fold Over Bag. The ECM Logo will print in the bottom gusset where possible or on the face of the bags.

	Sizes (in.)	Gauge (mil.)	Included Image Area (sq.in.)	Maximum Imprinted Area (in.)
A	9 x 12	1.5	25	6 x 7
B	11 x 15 x 2	1.85/1.35	50	7 x 7
C	13 x 18 x 4	1.85/1.35	70	8.75 x 8
D	16 x 18 x 4	1.85/1.35	70	11.5 x 10
E	21 x 24 x 5	1.85	80	16 x 10
F	22 x 20 x 4	2.5	80	16 x 10

Colors White

Minimum 500 pcs. (For 1 or 2 colors)

NOTE: Orders under 5,000: ink colors must be chosen from one of our standard colors.

Minimum for ordering 1.35 mil gauge is 5,000.
